

## **Angelique Custom Creations Classes - 2010**

### **Beginners Wire Jewellery**

In this class students will be introduced to the tools and materials used in wire jewellery. They will learn how to make findings such as jump rings, headpins, hooks and clasps. Students will also learn two methods for making Egyptian jewellery and two ring making techniques.

### **Intermediate Wire Jewellery**

Students will learn wire sculpting techniques. Projects include an adjustable ring, hoop earrings, a beaded brooch and a wire bangle.

### **Advance Wire Jewellery**

Several advance classes are available

- Advance Pendants
- Advance Bracelets
- Advance Rings
- Chain Maille
- Fine Jewellery (casting, soldering, stone setting, etc.)

### **Beginners Polymer Clay Jewellery**

Students will learn how to create their own beads and jewellery components (pendants, earrings, etc.) using polymer clay. Students will also be taught how to apply finishing touches and how to assemble the jewellery components.
